

area	theme	ambivalence		Most think	I think
everyday	health	desire	suffering	life is Beautiful	life is suffering
living environment	generativity reproduction	love	hate	People are altruistic	People are selfish
politics	Interests	Makes	fainting	Politics is common good	Politics is individual welfare
Business	ability to pay	solvent	insolvent	division of labour: Each person does what they are good at. Each person gets what they need	division of labour: People who are unable to pay have to work, people who are able to pay are allowed to consume
knowledge	knowledge	true	not correct	Knowledge is provable knowledge is certain	Knowledge is always partly wrong Knowledge becomes less and less partly wrong Hope for eternal progress Life arises and develops through evolution Knowledge arises and develops through evolution Life and knowledge are becoming more and more virtual Coincidence, consciousness, will are the present moment of separating overlapping possibilities (coffee gets cold, decisions are made and dice are rolled)
Believe				dualism immortality living things afterlife Afterlife Immortality Living beings Eternal life Living beings Beyond afterlife contacts a spiritual world a material world	monism Immortality beginning/form/substance/end omega point resurrection Mortality Living beings Death Living beings is complete spiritual and material world are one world
